PROFILE

I am an organized professional with proven leadership skills, a strong history of program implementation and evaluation, and excellent clinical and therapeutic skills. I enjoy working on interdisciplinary teams and solving problems collectively. I am passionate about education, collaboration, and communication. I believe that our words have meaning, and that we as humans do not always recognize this. I am passionate about working with ventures and organizations that are anti-racist, gender and sexuality inclusive, culturally responsible, and committed to ethical operation.
