

## Using Technology in Mental Health Practice

There are several types of digital platforms and devices that can optimize treatment and are easily added to our clinical toolbox. Many of these devices can be used as clinician extenders by expanding therapeutic reach and augmenting treatment outside the office. While some of these technologies have been available for decades, they are now easier to use and are also cost effective. The trend in health care is increasingly digitally based and data driven, being fed by advances in digital platforms and innovative devices. Video technology and internet capacity have reached the point where they are reliable and advanced enough to make tele-mental health quite accessible to utilize. While there are still many people who have only tenuous links with the digital world, even those in rural and underserved populations may have access to care not previously available using new tools. In response to the COVID-19 pandemic, mental health clinicians by necessity have begun using telehealth platforms to continue to provide much needed services. The use of teletherapy affords clinicians opportunities to effectively broaden their scope of practice and deliver high quality treatment while doing so. The provision of telehealth has both pros and cons that need to be considered when using this technology. Smartphone applications (Apps) that can track mood, anxiety, and sleep (and provide feedback to clinicians) are rapidly developing and are widely available. Devices that can directly address brain and emotional states such as Heart Rate Variability Biofeedback (HRV), Cranial Electrotherapy Stimulation (CES), and Neurofeedback (NFB) can be incorporated into one's practice at a reasonable cost. Many of these devices can be used by patients between sessions to retrain their "brain states" by monitoring physiological arousal and increasing vagal tone to maximize treatment effect. This seminar provides you with an overview and introduction to technology-based aids to mental health practice.

### Target Audience

Psychologists  
Therapists  
Social Workers  
Psychiatrists  
Counselors  
Nurses  
Course level: Intermediate

### Learning Objectives

- At the end of this seminar, participants will be able to:
1. Identify the ethical use of technology in mental health
  2. Incorporate advances in technology to enhance clinical practice
  3. Initiate and/or enhance the delivery of teletherapy services
  4. Adopt new technologies to augment treatment
  5. Increase the scope of practice by incorporating new technologies

### Seminar Schedule

Typically begins at 10:00 AM and ends at 1:15 PM Eastern time. There is one 15 minute break. However, check the webinar schedule.

## Outline

Begin 12 PM EST  
Introduction & Overview  
The Digital Revolution  
Using the internet and mental health platforms  
The Provision of Teletherapy  
Basic considerations  
Setting up a technology-based practice  
Challenges that may arise providing teletherapy  
1:30 to 1:45 Break (15 min)  
Review of Devices  
Cranial Electrical Stimulation (CES)  
Heart Rate Variability Biofeedback  
New Developments in Neurofeedback  
The explosion of mental health apps  
Treatment  
When and how to incorporate these into treatment package  
Setting up a technology-based office  
Using state change technology in treatment  
End 3:15 PM EST

Our seminars are available in two formats. The first is a live, interactive webinar. If the webinar time is not convenient for you, you can purchase the Home Study version. It is a recorded version of the webinar. You will have to pass a test to earn CE's for both the live webinar and the Home Study version.

### Continuing Education Credit

To earn CE's, you must attend the entire webinar. No partial credit is available. For both the webinar and the home study version, you will have to pass a post-test with 80% correct and complete a seminar evaluation to earn the certificate. You can take the test up to three times. Participants will earn 3 CE's for attending once they have completed these requirements.

PSYCHOLOGISTS: tzkseminars is approved by the American Psychological Association to sponsor continuing education for psychologists. tzkseminars maintains responsibility for this program and its content.

SOCIAL WORKERS: tzkseminars (Provider # 1242) is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved as ACE providers. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit. tzkseminars maintains responsibility for this course. ACE provider approval period: 3/28/2019 to 3/28/2022. Social workers completing this course receive 3 general continuing education credits.

COUNSELORS: tzkseminars has been approved by NBCC as an Approved Continuing Education Provider, ACEP No. 6621. Programs that do not qualify for NBCC credit are clearly identified. tzkseminars is solely responsible for all aspects of the programs.

tzkseminars is recognized by the New York State Education Department's State Board for Social Work as an approved provider of continuing education for licensed social workers #0024.

tzkseminars is recognized by the New York State Education Department's State Board for Mental Health Practitioners as an approved provider of continuing education for licensed creative arts therapists #0001.

tzkseminars is recognized by the New York State Education Department's State Board for Mental Health Practitioners as an approved provider of continuing education for licensed marriage and family therapists #0003.

tzkseminars is recognized by the New York State Education Department's State Board for Mental Health Practitioners as an approved provider of continuing education for licensed mental health counselors #0004.

tzkseminars is recognized by the New York State Education Department's State Board for Mental Health Practitioners as an approved provider of continuing education for licensed psychoanalysts #0002.

tzkseminars is recognized by the New York State Education Department's State Board for Psychologists as an approved provider of continuing education for licensed psychologists #PSY-003.

tzkseminars is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

## The Presenter

Jeffrey J. Magnavita, Ph.D., ABPP is a clinical psychologist with over three decades of clinical experience working with personality dysfunction. He is an internationally recognized speaker who has published eleven professional volumes on personality disorders, personality theory, psychotherapy, clinical decision making, and technology in mental health practice. His psychotherapeutic work has been featured in two APA psychotherapy videos. He served on the APA Clinical Practice Guideline Committee and was invited to serve on the Advisory Work Group on the Implementation of Evidence-Based Practice. He served as the President in 2010 of the Society for the Advancement of Psychotherapy. He is the Founder and CEO of Strategic Psychotherapeutics, LLC the developer of StratPsych ® an online learning system for psychotherapists.

## General Information
